Background

Experiment Progress

Next Steps

Background

- **Problem.** The core problem we are addressing.
- **Prior work.** What has been done, and where it falls short.
- **Our angle.** The approach we take.

Experiment Progress

- **Done.** Experiments completed, and the key findings.
- **In progress.** Experiments currently being run.
- **Open issues.** Difficulties and risks encountered.

Next Steps

- Short term: finish the comparison experiments and the ablation study.
- Mid term: polish the figures and tables, then draft the paper.
- Long term: target venue and submission timeline.
